RETROFIT KIT
HM-527 to HM-W541RFX**

- REPLACE SENTRY LEGACY HOST PANELS WITH A SENTRY FREEDOM WIRELESS PULL CORD
- TWO GANG TO ONE GANG ADAPTER PLATE
- HM-582 TO 8 PIN CONNECTOR HARNESS

DESCRIPTION:

The HM-582RF Retrofit kit allows easy conversion of the Sentry Legacy wired emergency call system to the Sentry Freedom wireless emergency call system.

Harness provides direct connection to existing devices of the Sentry Legacy wired system for use on the Sentry Freedom wireless pullcord model HM-W541RFX pullcords. For example: wired remote pullcords, wired 12v smoke detectors (4 or 6 wire type).

Two gang to one gang adapter is made of high-impact, white, molded ABS plastic.

Adapter harness is a male host panel connector that plugs into the existing room female host panel connector with 5 inches of wire to an 8 pin header connector that mates to the HM-W541RFX Sentry Freedom wireless pullcord transmitter.
