Mobile Wireless Pendant for Residents and Staff

HM-1221S-60

FEATURES AND BENEFITS

FOR RESIDENTS:

- 60% smaller and lighter than our previous pendant. Discreet and easy to conceal under clothing.
- Contoured shape and polished finish offer comfort and provide a modern, fashionable look.
- IP67 waterproof rating for safe use in shower and bath.
- Recessed activation button reduces risk of false alarms. Dimpled to locate by touch.
- Bright, continuous flash for greater awareness of call activation and low battery conditions.
- Vibration feature confirms alarm activation.
- Dedicated neck lanyard and wrist versions tailored for enhanced wearability, safety and ease of use. Optional belt loop attachment kit is also available.

FOR CAREGIVERS AND COMMUNITY MANAGEMENT:

- Simple, non-intrusive alarm clearance using a magnetic alarm clearance card or button press pattern. LED feature allows for visual confirmation of successful alarm clearance.
- Robust one year battery life (supports 5 activations per day and 10 minute alarm clearance time).
- Low battery light on pendant supplements system-monitored low battery condition alerts.
- Twist-lock access for fast and easy primary battery replacement (no more screws!).
- Works on the existing EchoStream network infrastructure.
- Certified for installation in UL 2560 listed emergency call systems.
- 60 minute check-in interval allows for compliance with UL 2560 network traffic guidelines and achievement of one year battery life.
- Replaceable CR2032 coin cell battery is included with purchase along with a smart power system. Each pendant has a non-replaceable lithium ion polymer secondary battery which works in concert with primary CR2032 coin cell battery.
